Regional Operations Center  
Salt Lake City, UT

# **WEATHER KEY POINTS**

**11/18/21 - 11/24/21**

## **Thursday-Wednesday**

- Areas of overnight and morning dense fog will be present across coastal California through late week, bringing periods of greatly reduced visibility at times
- Breezy conditions, light rain, and some higher elevation light snow showers return to northern California Thursday afternoon through Friday, though no widespread significant impacts are expected. Precipitation amounts look to average less than 0.25 inches, with areas closer to the coast receiving up to a half inch.
- Fire weather conditions across coastal southern California may become elevated to critical once again Sunday and Monday as gusty Santa Ana winds develop
  - An additional round of Santa Ana winds and elevated fire weather conditions are possible mid to late next week.
